CERTIFIED PUBLIC ACCOUNTANTS

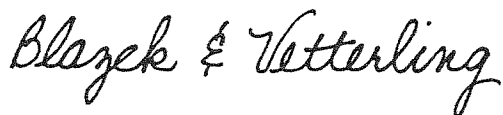

Independent Auditors' Report

To the Board of Directors of
Living Water International:

We have audited the accompanying statements of financial position of Living Water International (LWI) as of December 31, 2009 and 2008 and the related statements of activities, of functional expenses, and of cash flows for the years then ended. These financial statements are the responsibility of the management of LWI. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform our audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of LWI as of December 31, 2009 and 2008 and the changes in its net assets and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Living Water International

Notes to Financial Statements for the years ended December 31, 2009 and 2008

NOTE 1 – ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

Organization – Living Water International (LWI) was organized as a Texas nonprofit corporation in 1990. LWI exists to demonstrate the love of God by providing desperately needed clean water and health and hygiene training, along with the Living Water of the Gospel of Jesus Christ, which alone satisfies the deepest thirst. LWI serves all people, regardless of religion, race, ethnicity or gender. LWI's services are provided in developing countries. The goal is to provide services by establishing independent nonprofit organizations (NGO) in the country being served. In countries where LWI has not yet established a relationship with an established NGO, LWI provides support to individuals or groups who work to further the ministries.

Federal income tax status – LWI is exempt from federal income taxes under §501(c)(3) of the Internal Revenue Code and is classified as a public charity under §509(a)(1) and 170(b)(1)(A)(vi).

Cash equivalents include highly liquid investments with original maturities of three months or less.

Pledges receivable that are expected to be collected within one year are recorded at net realizable value. Pledges receivable that are expected to be collected after one year are discounted to estimate the present value of future cash flows, if material.

Property and equipment is stated at cost, if purchased, or at estimated fair value at the date of the gift, if donated. Property and equipment purchases over \$5,000 are capitalized. Depreciation is calculated on a straight-line basis over estimated useful lives of 5 to 40 years.

Net asset classification – Contributions and the related net assets are classified based on the existence or absence of donor-imposed restrictions, as follows:

- *Unrestricted net assets* include those net assets whose use is not restricted by donor-imposed stipulations even though their use may be limited in other respects, such as by contract or board designation.
- *Temporarily restricted net assets* include contributions restricted by the donor for specific purposes or time periods. When a purpose restriction is accomplished or a time restriction ends, temporarily restricted net assets are released to unrestricted net assets.

Contributions are recorded as revenue at fair value when an unconditional commitment is received from the donor. Contributions received with donor stipulations that limit their use are recorded as restricted support. Conditional contributions are recognized in the same manner when the conditions are substantially met.

Contributed materials and services are recorded at fair value when an unconditional commitment is received from the donor. Contributions of services are recognized when services received (a) create or enhance nonfinancial assets or (b) require specialized skills, are provided by individuals possessing those skills, and would typically need to be purchased if not provided by donation. LWI received approximately \$80,000 in 2009 and \$150,000 in 2008 in contributed program supplies and materials. A

substantial number of volunteers have contributed significant amounts of time in connection with programs, administration and fundraising for which no amount has been recorded in the financial statements because the services did not meet the criteria for recognition under generally accepted accounting principles.

Fees for service – Government grant revenue, rental income, and training fees are recognized in the period in which the related services are provided. Amounts received for future training sessions or unexpended government grant advances are included in the financial statements as deferred revenue.

Estimates – Management must make estimates and assumptions to prepare financial statements in accordance with generally accepted accounting principles. These estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, the amounts of reported revenue and expenses, and the allocation of expenses among various functions. Actual results could vary from the estimates that were used.

Reclassifications – Certain reclassifications have been made to the prior year financial statements to conform to current year presentations.

NOTE 2 – CASH AND CASH EQUIVALENTS

Cash and cash equivalents consist of the following:

	<u>2009</u>	<u>2008</u>
Demand deposits	\$ 2,425,764	\$ 975,442
Money market mutual funds	<u> </u>	<u>2,380,930</u>
Total cash and cash equivalents	<u>\$ 2,425,764</u>	<u>\$ 3,356,372</u>

Bank deposits exceed the federally insured limits per depositor per institution.

NOTE 3 – FAIR VALUE MEASUREMENTS

Generally accepted accounting principles require that certain assets and liabilities be reported at fair value and establish a hierarchy that prioritizes inputs used to measure fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The three levels of the fair value hierarchy are as follows:

- *Level 1* – Inputs are unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the reporting date.
- *Level 2* – Inputs are other than quoted prices included in Level 1, which are either directly observable or can be derived from or corroborated by observable market data at the reporting date.
- *Level 3* – Inputs are not observable and are based on the reporting entity’s assumptions about the inputs market participants would use in pricing the asset or liability.

Assets measured at fair value at December 31, 2008 are as follows:

	<u>LEVEL 1</u>	<u>LEVEL 2</u>	<u>LEVEL 3</u>	<u>TOTAL</u>
Money market mutual funds	\$ 2,380,930	<u> </u>	<u> </u>	\$ 2,380,930
Total	<u>\$ 2,380,930</u>	<u>\$ 0</u>	<u>\$ 0</u>	<u>\$ 2,380,930</u>

Mutual funds are valued at the reported net asset value. This valuation method may produce a fair value that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while LWI believes its valuation method is appropriate, the use of different methods or assumptions could result in a different fair value measurement at the reporting date.

NOTE 4 – PLEDGES RECEIVABLE

Pledges receivable as of December 31, 2009 are expected to be collected as follows:
