**Type:** Paid Internship, Part Time (minimum 20 hours per week for 8-12 weeks)

**Supervisor:** Director, Monitoring, Evaluation & Learning

**Estimated start date:** January 10, 2022

---

### JOB PURPOSE

The Research Intern will help advance the results-based understanding of Living Water's work to transform entire communities through water, for life, in Jesus' name. As a member of the Programs team, he or she will assist in the monitoring, evaluation, and learning efforts by conducting secondary research, analyzing data, and developing reports.

### ABOUT LIVING WATER

Living Water International exists to demonstrate the love of God by helping communities acquire desperately needed clean water and to experience "living water"—the gospel of Jesus Christ—which alone satisfies the deepest thirst. We mobilize churches and communities through water access, sanitation, and hygiene (WASH) interventions to increase the physical, spiritual, and social wellbeing of the most vulnerable in communities around the world. With over 300 global staff, we currently work in 18 countries and have provided access to safe water to nearly 6.5 million people. These principles guide and identify us as colleagues and representatives of Living Water:

- Honor God
- Develop People
- Pursue Excellence
- Be Good Stewards

### KEY TASKS AND RESPONSIBILITIES

- Conduct statistical analysis on monitoring and evaluation data collected by Country Offices
- Assist in developing program documentation related to program design, monitoring, evaluation, and learning
- Develop reports for internal and external audiences
- Support in developing reports and dashboards in Salesforce

### MINIMUM EDUCATION / EXPERIENCE

- Bachelor's Degree (or in final year) in a related field: International Development, Public Health, Economics, Statistics, Civil/Environmental Engineering, Environmental Science, or other applicable field
- Experience with statistical analysis, secondary research, and/or technical writing
- Proficiency in Microsoft Excel
- Knowledge of research methodologies, survey design, sampling strategies, and data collection

### PREFERRED EXPERIENCE

- Experience with at least one data analytics software (e.g. R, Stata, SPSS, Matlab, Atlas.ti, MAXQDA, Dedoose, ArcGIS)
- Knowledge of international development, integral mission, and/or WASH
- Proficiency in a relevant second language and/or experience living internationally
