

## Job Opportunity

# Full Stack Developer

<b>Location</b>	Remote within US (only from the following states: AL, AR, CO, FL, GA, MI, MO, OR, SC, TN, TX, VA, WA & WI).
<b>Department</b>	Strategy & Innovation
<b>Supervisor</b>	Senior Salesforce Administrator
<b>Type</b>	Salaried, Full-time

## JOB PURPOSE

The Full Stack Developer is an integral part of the Strategy & Innovation team, tasked with helping bring app ideas to life through quality programming and utilizing the latest cloud technology. This role will work on a team to create premium donor experiences that deeply integrate with our Salesforce CRM system. Utilizing low and no-code solutions where possible, this role will help lead the way in creating a connection between our donors and the communities that we serve.

## CORE CHARACTERISTICS

These principles guide and identify us as colleagues and representatives of Living Water:

- Honor God
- Develop People
- Pursue Excellence
- Be Good Stewards

Team culture:

- Stays curious
- Listens to our neighbors (external stakeholders)
- Learns by trying things
- Embraces feedback

## KEY TASKS AND RESPONSIBILITIES

- Write high quality code using Flutter, Dart, Javascript and other programming languages
- Utilize low-code and no-code tools when possible to provide quicker delivery of projects
- Leverage Google Cloud to provide scalable applications across Android, iOS and Web platforms
- Integrate applications with the Salesforce CRM through REST APIs and ETL tools
- Work to integrate AI solutions into the applications being built
- Support Salesforce development within the APEX and JavaScript languages
- Provide wireframes and app mockups for project planning
- Maintain data privacy and security best practices within the built applications
- Create documentation and resources for training on new features/functionality

## EDUCATION / EXPERIENCE / SKILLS

On the first day we'll expect you to have:

- Minimum of 4-7 years of application development within a cloud-based architecture.
- Bachelor's degree in computer science, information technology or a similar field.
- Proven experience using Flutter, Dart and Javascript, or similar programming languages
- An understanding of Google Firebase and Cloud Functions
- Familiar with FlutterFlow, a low-code Flutter platform
- A solid understanding of database architecture and integration best practices
- A proven desire to continue personal/professional development
- Strong problem-solving skills and excellent communication/documentation skills
- Ability to work effectively with various cross-functional teams

## More about Living Water

Living Water International exists to demonstrate the love of God by helping communities acquire desperately needed clean water and to experience “living water”—the gospel of Jesus Christ—which alone satisfies the deepest thirst. We mobilize churches and communities through water access, sanitation, and hygiene (WASH) interventions to increase the physical, spiritual, and social wellbeing of the most vulnerable in communities around the world. With over 300 global staff, we currently work in 18 countries and have provided access to safe water to nearly 6.5 million people.

## We Offer

- Generous PTO, vacation, and holidays
- Retirement/403(b) with match
- Medical, vision and dental benefits
- Group Life, STD, LTD and AD&D (Employer paid)
- Opportunities for professional development
- Spiritual care and formation program
- Employee assistance program
- Casual dress code
