

EMPOWER YOUR GIVING:

Discover the Power of
Donor Advised Funds

water.cc

Looking for a seamless way to manage your charitable contributions and create a lasting impact?

Donor Advised Funds (DAFs) are transforming philanthropy by offering a flexible, efficient, and impactful way to give. As one of the fastest-growing charitable tools, DAFs enable you to consolidate your giving, receive immediate tax benefits, and support causes close to your heart with ease.

How Donor Advised Funds Work:

- 1. SET UP YOUR FUND:** Open a DAF and fund it with cash, securities, real estate, or other assets.
- 2. GROW YOUR ASSETS:** Benefit from potential tax-free growth of your DAF investments, thanks to favorable tax regulations.
- 3. DIRECT YOUR DONATIONS:** When ready, recommend grants to Living Water International and other organizations, ensuring your support reaches those in need.

Why Choose Donor Advised Funds?

FLEXIBILITY: Fund your DAF and make grants to your chosen charities whenever you wish, giving you control over your charitable giving.

PRIVACY: Make anonymous donations if you prefer, and involve family members in decision-making about charitable grants.

LEGACY BUILDING: Create a fund that continues to support Living Water International and other causes for years to come, leaving a lasting impact.

SIMPLICITY: Incorporate your DAF into your estate planning, and easily update your list of supported charities without modifying your will.

TAX ADVANTAGES: Enjoy immediate tax deductions, tax-free growth on investments, and avoid capital gains taxes on appreciated assets.

EFFECTIVE STEWARDSHIP: Contribute to impactful projects with minimal time commitment, ensuring your generosity benefits communities worldwide.

DAFs, whether known as Giving Funds, Stewardship Funds, or other names, provide an effective way to manage and amplify your charitable giving. With a DAF, you can set aside funds, reap tax benefits, and direct your philanthropy efficiently.
